While using font awesome, the icons showed as a unknown character? Exactly like this □□□□.

What should I do for fixing this problem!?

span i

If you will transfer it on a server you can use the cdn ;) Otherwise check your path and calls are correct

Try using the CDN :
<link rel="stylesheet" href="https://use.fontawesome.com/releases/v5.3.1/css/all.css" integrity="sha384-mzrmE5qonljUremFsqc01SB46JvROS7bZs3IO2EmfFsd15uHvIt+Y8vEf7N7fWAU" crossorigin="anonymous">

And try as well to display your website through an apache server (wamp/mamp).

Now it is in offline mode. After being completed I want to transfer it on a server. I mean that I'm using the desktop mode of font awesome.

Hot Today

What is the mistake here?

I can't see my project in hot today. There is only one project is showing. Why???

My code is not passing all the test cases

Why When i run code show me this message: as class wasn't found in as project.select the main class:< no main classes found >

Java Loan Calculator

You're working on a search engine

Can anyone explain me this question (javascript)

a = b = 500 print(a is b) a -= 200 b -= 200 print(a is b) a = a - 200 b = b - 200 print(a is b) # explain it

Blue and Green check mark in my streak

Can someone help me with 42 Code project in Python for beginners pls?
